First Forensic Ltd is an independent forensic science consultancy. Run by a dynamic team of experienced forensic scientists, we provide expert opinion in a wide range of case types. We have a proven track record of impartiality working for both prosecution, defence and as a Single Joint Expert. With a dedicated laboratory in the heart of the UK, First Forensic Ltd have clients throughout the UK and have worked in several European countries.

Services include:

- Scene investigation and laboratory examinations
- Incident reconstructions
- Reviews of scientific findings, interpretation and expert evidence
- Assistance with witness interview strategy
- Training and lecturing

Our expertise includes:

- Fire and explosion investigations
- Interpretation of burning damage and thermal injuries
- Footwear marks and feet in shoes comparisons
- Tool and manufacturing marks
- Glass, paint and particulate materials
- Drugs

We can provide expert opinion in a wide range of cases including:

Murder, assault, child protection, arson, robbery and burglary

Initial telephone consultations are free of charge with no obligation. We are happy to introduce our team to you and give examples of some of our recent cases, by way of a visit to your organisation. If you have a specific query or would like some general information about our services please contact us.
